Dear Parents/Carers,

Please find overleaf a copy of the latest Ofsted report following the inspection in January. Since September Ofsted reports on schools have become shorter and more succinct, even though the process itself is as rigorous as ever.

In September Ofsted introduced a new inspection framework for schools with a clear focus on the whole curriculum. Like most schools, we have been working very hard for some time to overhaul our curriculum provision in all subjects. The inspectors recognised the hard work leaders and staff have already carried out to address these very high curriculum expectations in terms of deep learning and sequentially planned key knowledge. They also recognised the plans in place to ensure that the comprehensive planning and delivery which has been founded in some subjects areas will be established in all subjects by the end of this school year.

It is very pleasing to read so many positive things about our school and we are very happy with the conclusions the inspectors came to after spending two rigorous days with us. As in the last inspection, Ofsted recognised that "Pupils' personal, social and emotional development is a strength of the school ". Although it is less tangible than SATs data and attainment , the values we try and teach the children about how they respect other people , believe in themselves and cope with the challenges that life can bring, will continue to be our driving force.

We are eager and keen to meet every educational challenge ahead and we will do everything in our power to continue to provide the highest standard of education for your children. I would also personally like to thank all the parents/carers who support our work so well because without that partnership the children would not flourish as they do.

Yours Sincerely,
Mrs H Wilson, Head Teacher.
