

Middlestone Moor Primary School

Date: 23/10/20

Dear parent or carer,

Please see below a letter for all of our families from the Director of Public Health and the Head of Education and Skills for County Durham. The letter is asking you to inform school ( via email) if your child tests positive for COVID during the half term break. If the timing of the symptoms and test ( as per the track and trace time scales) affects any bubble within school- we will let the parents of that bubble know via a text message that their child should self isolate.

***If you are not contacted by school it means that due to time passed there is no need for the bubble in question to self isolate.***

We hope that everyone enjoys the half term break as best as you can under the circumstances and that you and your families stay safe and well.

Yours sincerely

Mrs H Wilson  
Headteacher

Dear Parents

Firstly can I thank everyone, children, parents and school staff alike for their efforts during this first term back to school. Although it's been a challenge for many we have started to see a steady rhythm within schools living under covid measures. Thank you.

It is in this respect that I write to you today. With the high rates of COVID-19 in County Durham currently, I am asking parents to let the school know if their child tests positive for COVID-19 during the half term break. If your son or daughter receives a positive COVID-19 test after Friday 23rd October 2020 please contact the school immediately on [middlestonemoor@durhamlearning.net](mailto:middlestonemoor@durhamlearning.net) and provide the following information:

**Name of child**

**Class/year group**

**Date of the COVID-19 test**

**Does the child have symptoms? Yes or No**

**What date did the symptoms start?**

**What date did the child last attend school?**

It is very important that you provide this information so that the school can identify any close contacts that your son or daughter may have had in school during their infectious period. The school will then follow up close contacts and request that they isolate for 14 days to prevent further transmission of COVID-19. Please note that you should also report any close contacts that your child has had outside the school setting through NHS Test and Trace. If you are unable to speak to your school please make sure you have provided information of all close contacts within the school to NHS Test and Trace.

In addition I know our children and young people will still want to see their friends during the holidays, but please can I remind all parents that children and young people must not meet up in groups larger than six people (of any age) and that young people should not be gathering indoors with friends. Please also remember where they do meet up in groups of six or less they should still observe social distancing and good hand hygiene. Helping our children and young people to understand the importance of this will help to keep us all safe and healthy.

Thank you again for your help in this matter and I wish you a safe and well half term break.

Yours sincerely

Amanda Healy, Director of Public Health for County Durham  
Richard Crane, Head of Education and Skills
